ELSEVIER

Int. J. Miner. Process. 48 (1996) 265

INTERNATIONAL JOURNAL OF MINERAL PROCESSING

Contents of Volume 48

Research papers

Measurement of oxidation in a base metal flotation circuit by selective leaching with EDTA
J.A. Rumball and G.D. Richmond 1

The chemistry of tricalcium aluminate hexahydrate relating to the Bayer industry
B.I. Whittington and C.M. Cardile 21

The effect of slurry viscosity on hydrocyclone classification
S.K. Kawatra, A.K. Bakshi and M.T. Rusesky 39

Biobeneficiation of bauxite using *Bacillus polymyxa*: calcium and iron removal
P. Anand, J.M. Modak and K.A. Natarajan 51

Numerical modeling of flows in flotation columns
H. Deng, R.K. Mehta and G.W. Warren 61

Concentration and classification characteristics in a modified air-sparged hydrocyclone (ASH)
L.-Y. Chu, Q. Luo and R.-H. Yu 73

Evaluation of mutual interactions in binary mineral suspensions by means of electrophoretic light scattering (ELS)
J. Škvarla 95

Precipitate and adsorbing colloid flotation of dissolved copper, lead and zinc ions
L. Alexandrova and L. Grigorov 111

Flotation separation of plastics using selective depressants
J. Shibata, S. Matsumoto, H. Yamamoto, E. Kusaka and Pradip 127

The significance of flotation froth appearance for machine vision control
D.W. Moolman, J.J. Eksteen, C. Aldrich and J.S.J. van Deventer 135

Thermogravimetric and XRD studies on iron compounds precipitated from Fe(II)–SO_4–NH_3–O_2 system
R.P. Das and S. Anand 159

Effect of bauxite properties on the settling of red mud
L.Y. Li and G.K. Rutherford 169

Modified column flotation of mineral particles
J. Rubio 183

The significance of collector colloid adsorption phenomena in the fluorite/oleate flotation system as revealed by FTIR/IRS and solution chemistry analysis
M.L. Free and J.D. Miller 197

Behaviour of LIX 64N during copper electrowinning from a bath containing Fe^{3+}
N. Pradhan, P. Gopala Krishna and S.C. Das 217

Gold recovery from a sulphide bearing gold ore by percolation leaching with thiourea
L. Tremblay, G. Deschênes, E. Ghali, J. McMullen and M. Lanouette 225

Real-time reconciliation of mineral processing plant data using bilinear material balance equations coupled to empirical dynamic models
D. Hodouin and S. Makni 245
